

For **Top of their Game – Real World** Specialists

Ask for Cummins qualified Field Service Technicians

- **All on-site work** from engine diagnostics, including engine management systems, through to major engine overhauls and engine replacements.
- Fully equipped Field Service Vans for breakdowns, assisted diagnostics or in-field engine servicing.
- Support from **the broadest alternative inventory of Cummins spare parts** in the country.
- **Field Service Techs are hand-picked and Cummins trained.** Their expertise typically covers road transport, earthmoving and mining, industrial plant, marine and recreational (motor home) applications of Cummins engines;
- Field Service Techs are not only technically experienced but also know how to take care of the customer in the field. Their charter is for **100% customer satisfaction** through accuracy in the application of their skill and through superior customer service.
- Preferential Finance available for your large purchases, overhauls and repairs. For speedy service, fast turnaround and a quick settlement, please ask us more.

24/7 One Call Breakdown & Parts Service (07) 3277 8277

Neil Bird

A typical day as a Torquepower Field Service Fitter starts before dawn, and ends late. Neil is an exceptional technician, with a 37 year career working on mining equipment, earthmoving machines, boats, forklifts and trucks, diesel engines and ancillaries. Neil has travelled many thousands of kilometres for Torquepower, bringing Cummins engines back to life from the Australian outback to the Pacific Islands.

Michael Mercer

Michael has worked as a Diesel Fitter since 2005. A bright young technician, Michael was signed off in just 3 and a half years, rather than 4 and a half, and was a part of the Cummins Field service unit for many years, before he joined Torquepower. Michael enjoys working with Cummins engines and the challenge of field service. *"It's good to get to work on the whole Cummins range for Torquepower, and bring my expertise to the role as well."*
